

# About EVP Office

The best software for historical securities pricing, bar none

**EVP Office is a suite of Windows applications** that make valuing securities for IRS Form 706 and 709 fast, easy, and accurate. The **undisputed industry leader** for almost 40 years, EVP Office’s flagship program—**EstateVal**—is best way to get what you (and your clients) need.

## EstateVal

The most popular software for historical securities pricing there is, and for good reason—EstateVal sets the standard. There are thousands of people who rely on EstateVal’s accuracy and ease-of-use every day.

## GiftVal

Everything EstateVal does for estates, GiftVal does for gifts—just as accurately, and just as fast. GiftVal makes filing Form 709 a breeze.

## CostBasis

Establishing the cost-basis of a portfolio can be a lot of work—unless you have software to handle gathering the historical prices for you. CostBasis makes a tedious job easy.

## CapWatch

Get instant access to millions of capital changes, for both equities and fixed-income securities—splits, spin-offs, mergers, exchanges, bankruptcies, and more.

The screenshot shows the EstateVal software interface for a client named John Doe. The window title is "John Doe Estate - EstateVal". The menu bar includes File, Edit, View, Research, Evaluate, Report, Billing, Tools, and Help. The toolbar contains various icons for file operations and a notification for "One Unread Message".

On the left, there are input fields for:
 

- Date of Death: 04/05/2023
- Alternate Date: 10/05/2023
- Name: J. Doe
- Account: Trust #873-450
- Title: Estate Valuation
- Assets Held in Joint Account
- Notes

On the right, there is a table of securities:

	Identifier	Shares / Par	Name	
1	46625H100	10000	JPMORGAN CHASE & CO	●●
